Introduction.

Award for
Anigozanthos Early
Spring Floriade 2022
Product
Competition.

Our farm is located in the Rift Valley Region of Kenya, 25 Kilometers from Nakuru town. We produce, market, and sell fresh-cut flowers of different varieties. Our market are diverse in their regions and nationality.

The idea manifested from the thoughts and dreams of our CEO and now exist as a result to combined minds and efforts.

Our production area currently covers 30 acres with as assortment of limonium and anigozanthos flowering plant species

LIMONIUMS

An annual or perennial herb originally from the Mediterranean and central Asia. The name is derived from the Greek word "leimon" meaning meadow.

OUR VARIETIES

ANIGOZANTHOS

An Australian native plant with 11 species and various sub species. Commonly referred to as the Kangaroo Paw or cats paw depending on the shape of the flowers.

CAMPANULA

ENVIRONMENTAL FRIENDLY

We harness the power from the sun thus enabling us to reduce our carbon footprint, save on energy costs and contribute to a cleaner planet.

SUSTAINABILITY

We collect and store runoff water to use throughout the dry season, ensuring that our flowers receive the water they need to thrive.
